

# Want to be where the Grass is Truly Greener?

**TruGreen® Turfgrass Agronomist Intern Program** - Join our scientific team of experts for this 10-week paid program, where turfgrass and horticultural science meets business acumen. Your internship journey will be mentored by one of our 14 Regional Agronomic Experts, who will guide you through a rotational journey so you can explore the business showing all the career opportunities which are available to students in your field of study. This is not a summer job, but a professional experience which is aimed at not only improving your skills in both turf / landscape management – but also business management, gaining excellent pay and credits along the way.
